

Pride® Lifts

Backpacker AVP 2.0

Backpacker® Interior Lifts are specifically engineered for scooter and power wheelchair transportation, while providing concealment and weather protection for your mobility product. The low-profile, one-piece design allows for easy loading and unloading of your mobility product; simply drive on and off the all-steel constructed platform. Features include a durable 12-volt motor with an easy-to-use two button wired and wireless hand control for simple and reliable operation. Most applications do not require drilling or vehicle modification and include a kit for quick and easy installations.
