Regain your independence and conquer the struggles of staircases.

AmeriGlide offers stair lift solutions that provide freedom of movement throughout your home, allowing you to age in place free from everyday obstacles. Our compact and customized stairlifts can be installed anywhere. We have millions of satisfied customers worldwide with a dealer network across North America to support you.

Ultra slim profile. Revolutionary drive system.

The AmeriGlide Imperial Straight Stairlift features next generation technology with an ultra-streamlined design that takes up less space on your stairs. The Patented Multi-Drive Friction System will ensure your stairlift is operating at peak levels at all times with no reduction in performance ever.

With the Imperial, we eliminated the traditional rack and pinion model and invested in a friction drive system to power our next gen stairlift. We've achieved a quieter, smoother, more robust stairlift that's much easier to maintain. The contemporary design allows the Imperial to blend into any environment, becoming a complementary piece in your home.

Features for your safety and convenience.

Compact

The Imperial folds up easily maximizing the space for family members to go up and down the stairs as needed.

We know back pain and aches can occur anytime, that's why we made our Imperial easy to upgrade. Powered footrest and seat swivel can be added after installation for your convenience.

Easy to Use

Ergonomic and intuitive to use, the joystick on the armrest smoothly operates the Imperial.

Send for your stairlift at the touch of a button with the included remote control. Two are included with your Imperial with holders for both the top and bottom landings.

Easy to Maintain

Pet owners rejoice, the Imperial features four brush heads that constantly clean the rail from dust and hair, ensuring your lift is always spotless. The tooth rack free design also eliminates the necessity for grease on the rail offering a clean finish today and tomorrow.

Always Charged

The Imperial comes standard with Continuous Charge, your lift is always being charged anywhere on the track!

Did You Know?

Our **EasyGlide Technology** ensures an exceptionally smooth ride up and down the stairs; when you reach the top landing or bottom the Imperial gently glides to a halt, avoiding an abrupt sudden stop.

Retractable Seatbelt

The Imperial comes equipped with an easy-to-use retractable seat belt, a standard feature that provides added security when safely seated in your stair lift.

Stair Lift Myth

"Maintaining a stair lift is expensive."

Cost-effective parts, maintenance friendly design, and AmeriGlide's industry-leading warranty make the Imperial the smart choice.

Patented Multi-Drive Friction Technology

We've built multi-drive into a stair lift! In the unlikely event of a motor issue, you have three others to transport you safely to the top or bottom of the stairs. An emergency stop button is also located on the bottom of the chair.

Safety First

The optional powered footrest allows you to fold and unfold the footrest without having to bend down, an anti-slip texture on the footrest provides a better foot grip when seated and departing.

The Imperial is also fitted with multiple safety sensors which stop the stairlift whenever it runs into an obstacle.

Swivel Automatically

The optional powered swivel makes it easy to get off the lift at the top of landings, simply hold the toggle switch in the direction of the landing to turn the seat for a controlled departure.

With 80 degrees of tilt, you face more of your top landing providing a greater security blanket when getting up from your Imperial.

Imperial Fact!

The Imperial can be installed quickly – our installers are trained to be efficient; stairlift installation should be quick and pain-free and shouldn't interfere with your day.

A Stair Lift Suited for Any Interior

We designed the Imperial to be a smart, stylish complement to everything else in your home. The contemporary design is welcome in any home décor and is available in a warm vanilla beige upholstery.

Featuring our comfortable Style Seat in a leatherette finish, the seat surface is easily wipeable and cleans effortlessly.

The ultra slim rail beautifies the Imperial, simply there is no other rail on the market that competes with its overall look and sleek profile, a non-obtrusive design that quietly blends in with your staircase.

Frequently Asked Questions

We strive for 100% customer satisfaction. That is why we go the extra mile to offer you the highest standards of service and answer your questions in the best way possible.

We have listed some of our customers' most frequently asked questions. Should you have further questions, please contact us for a consultation.

Can a stair lift be installed on my staircase?

AmeriGlide offers a wide selection of stair lifts for straight and curved stairs. With a variety of lift models we are able to provide a suitable solution for each setting regardless of whether the stairs are narrow, steep, curved or long, indoor or outdoor. AmeriGlide always has a solution for your staircase.

Does it take major renovation to install a stair lift in my home?

No! The Imperial Straight Stair Lift is simply installed onto the stair treads. Because it is fixed to the staircase, you don't have to worry about any further modification to your home.

What happens to my stair lift during a power outage?

A power failure is no reason to worry. Your Imperial stair lift will use its batteries to remain operational and can still be used for at least 10 rides up and down the stairs. The Imperial features Constant Charge, providing charging anywhere on the track so it is ready for use 100% of the time.

How do I know when batteries need to be replaced?

The Imperial is equipped with a fault display behind the power pack, simply review the code and call your local dealer who can easily look up the code and inform you if the battery needs to be replaced.

Generally the batteries will last for three years depending on usage.

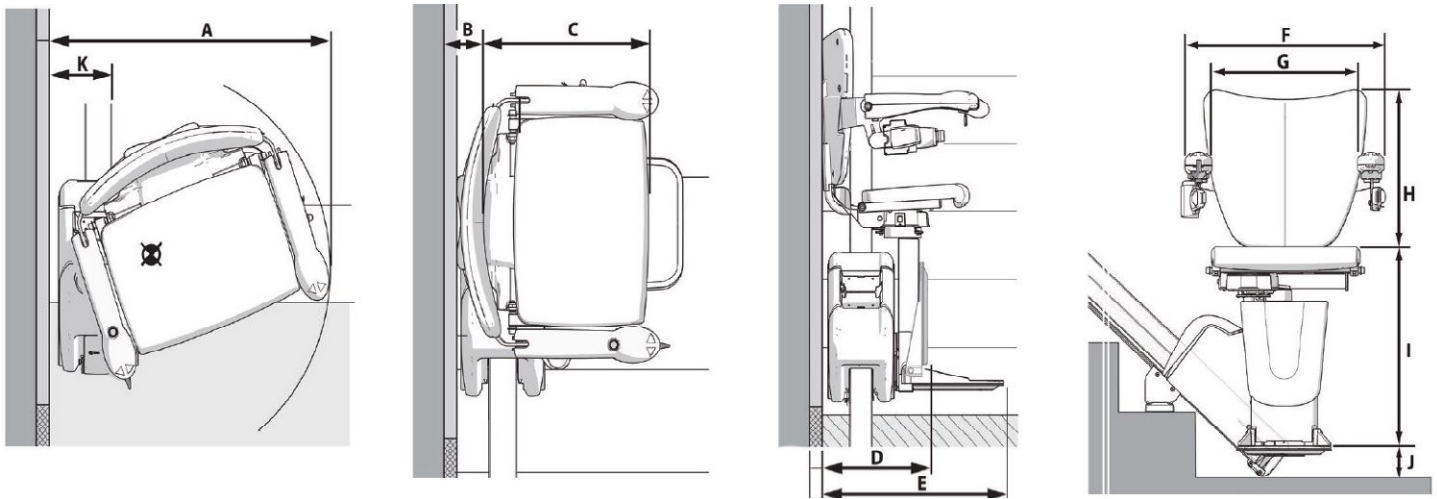

How do I enter and exit from a stair lift?

Entering and exiting the Imperial is made easy, simply unfold the seat and footrest, sit down while securing the seat belt. When it's time to exit your Imperial you can use easily swivel the seat to face your landing for a controlled departure

Can others still use my stairs?

Compact and ultra slim, the Imperial can easily be folded up when not in use to allow for easy pass-through for family members and friends.
