

ResQPod

THE RESQPOD ENABLES CARERS TO RAPIDLY AND SAFELY EVACUATE PEOPLE WITH MOBILITY PROBLEMS IN AN EMERGENCY.

The ResQpod is an evacuation board designed to help evacuate non-ambulant people or people who may not be able to walk down stairs in an emergency. It can be used for both children and adults.

The ResQpod can be used in office buildings, theatres, libraries, hospitals, schools and many other facilities.

Features

1 Long pulling straps

Located at both head and feet to allow for multiple users

2 Secure body protection

Completely encloses the upper body (with the option of having arms out)

3 Heavy duty hook and loop

For increased passenger safety

4 Impact absorbing pillow

For added head protection when transporting down stairs or across rough terrain

5 Glideable plastic board

Corrugated plastic board allows for excellent heat insulation preventing injury, plus removing the necessity to unroll every few months to prevent the plastic keeping its shape

6 Adjustable Straps

Curles the ResQMat around the feet, allowing it to fit all sizes

7 Padded mini mattress

Situated under the body for added comfort during transportation

Includes

- 440lbs Weight capacity
- 2 person operation
- Can be moved easily over virtually any surface
- Narrow width and flexibility
- Wipe clean storage bag
- Can be used down stairs

Benefits

- No installation necessary, ready to use instantly
- No belay system required
- No dangerous ropes to negotiate during evacuation
