

CONVERTED YUKON

CONVERTED YUKON XL

The ATC lift conversions can be used with most power and manual wheelchairs, if properly fitted with a locking system. As shown above, the original seat can also be used. Conversions can be performed for both driver and passenger sides of the vehicle.

The ATC lift can be installed in most GM 2WD & 4WD 1500, 2500, and 3500 series trucks. It can also be installed on a Suburban, Yukon XL, Tahoe, Traverse, and the Cadillac ESV. These vehicles offer the maximum cab room and more ground clearance than any other conversion on the market.

Driver or Passenger Side Conversions Available

CHEVY TRAVERSE CONVERSION

CONVERTED SILVERADO
Patent No: 10470951

CONVERTED TRAVERSE
Patent No: 10010461

MOBILITY WITH AN ATTITUDE

SPEED

25 second load and unload time. Lift is built to outlast the vehicle and the single-motor hydraulic lift system is quiet as well as fast.

PROTECTION

The gull-wing style door lifts up, adding protection from the weather while the users load and unload from the vehicle.

EASE OF OPERATION

Set the alarm, lock and unlock, and complete lift operation ... All with remotes that have an average range of 50 feet.

The ATC Warranty

No other conversion on the market offers the protection of a **3 year / 36,000 mile** warranty. ATC is so confident in its design quality and conversion longevity that we proudly offer top of the line warranty coverage.

ATC ADVANTAGES

- **Fast - 25 second load and unload time**

"Hello, my name is Jose Hernandez. I am 18 years old studying at Texas A&M International University to be a computer engineer.

Some of my hobbies are hanging out with my friends, going to the movies, out to eat, to the mall, and also spending time with my family.

This is all made possible with my new ATC truck."
