

Introducing the **Liberty** Straight Stairlift

Liberated Access

The AmeriGlide Liberty is engineered for reliability and ease of use. The Liberty combines smooth performance with a sleek, compact design that fits seamlessly into your space. Whether for yourself or a loved one, the Liberty stairlift offers a practical, stylish solution to staying mobile — and staying home.

Why Choose the Liberty?

Safety is our priority.

- **Obstacle sensors** to stop the lift if something blocks the path
- **Emergency lowering device** that allows you to safely descend the stairs in the event of a power failure
- **Extended battery life** to keep the lift working during a power outage
- **Retractable seat belt** to keep you feeling safe and secure on your ride
- **90° seat swivel** at top of rail for an easy exit
- **Slimmest rail on the market** at 3 inches wide, allowing more space on the stairs for others to use when the lift is not in use

Comfort isn't optional.

- **Padded seat and backrest** that contours to the body, easing pressure and providing a more pleasant ride
- **Two remote controls** to call the stairlift when not near
- **One touch operation** easy-to-use toggle switch

A Lift That Looks as Good as It Feels.

- **Modern, sleek design** that blends into any decor
- **Easy to clean material**
- **Neutral color** for a timeless look for years to come

AmeriGlide
ACCESSIBILITY SOLUTIONS

Designed for Absolute Freedom

The AmeriGlide Liberty stairlift was designed to provide absolute freedom to enjoy access to every bit of your home. Effortlessly glide between floors in absolute comfort and safety.

Worrying about the stairs will be a thing of the past with the AmeriGlide Liberty Straight Stairlift! We invite you to experience the freedom for yourself.

Safety

The Liberty stairlift is designed to give you peace of mind with standard features like obstruction sensors on the carriage and footrest, as well as a retractable seat belt. These built-in safety features make the Liberty as a secure and reliable solution.

Luxury

Let's face it. No one buys a stairlift just because it looks good. Until now, that is. The Liberty features a beautifully stitched design on the seat and backrest that are not only attractive, but is incredibly easy to keep clean, making it a win for both form and function.

Control

The pressure switch rests atop the end of the armrest at the just-right level for incredibly simple ease-of-use for anyone that needs to operate the lift. The paddle design, rather than a joystick or button keeps you firmly in control while using the stairlift.

Specifications

Maximum Capacity	300 lbs
